TECHNICAL SHEET

Product	***LED CURING LIGHT – LED-2LIGHT***
References	<table><tr><th>DÉSIGNATIONS</th><th></th><th>RÉFÉRENCES</th></tr><tr><td rowspan="2">**LED CURING LIGHT LED-2LIGHT**</td><td>**White**</td><td>3193597</td></tr><tr><td>Black</td><td>3193598</td></tr></table>
Visual	
Description	Wireless LED curing light: powerful, lightweight and easy to handle. Available in 2 colors: black or white
Characteristics & Technical data	6 modes: Soft, Ramp (progressif), Normal, Ortho, High, Turbo Curing times according to the modes: 1 to 20 seconds Light intensity: 700 to 3000 mW/cm² 360° polymerization Wavelength: 385 to 515 nm Lamp size: 240 mm x Ø 27 mm Lamp weight: ~ 112 g
Packaging	<u>Box contents:</u> - 1 curing handpiece - 1 light guide – Lens diameter: Ø10 mm - 1 charging station - 1 protective screen - 1 mains adapter - 100 single-use protective sleeves <u>Accessories:</u> - Battery - Light guide - Black or white battery cover - Mains adapter - Black or white charging station - Protective screen - Single use-protective sleeves
Intended use	The LED-2LIGHT curing light is intended for the polymerization of various dental materials, such as composites, adhesives, and other light-curable materials. The curing light operates based on the principle of light irradiation by briefly emitting light radiation onto the materials. It is designed for use in dental practices or dental care facilities by qualified professionals.
Warranty	12 month
Legal information	Class I Medical Device + EMC. CE marked. Manufacturer: Guilin Mecco Medical Instrument Co.,Ltd. – Floor 2 & 3, Building 4, Block D-04-2a, Qixing High-Tech Information Industrial Park, Guilin, Guangxi 541004 - China European Representative: Share info GmbH, Am Schulzentrum 12,41564 Kaarst, Germany
